

Speech Assessment Report

Student Information

Name: John Dosasdssdse

Class: 8

Gender: Not Provided

Center: Not Provided

Overview

John's performance reflects a need for improvement across various speech domains, suggesting a lack of confidence and clarity in his speech delivery.

Evaluation Breakdown

1. Domain: Language Proficiency

Score: 75

Remark: Good use of vocabulary.

Observation: John demonstrates a good command of vocabulary, which enhances his communication.

Improvement: He should work on incorporating more complex sentence structures.

2. Domain: Speed

Score: 60

Remark: Speech is slightly rushed.

Observation: John tends to speak quickly, which may affect clarity.

Improvement: Practicing paced speech will help enhance listener comprehension.

3. Domain: Pitch

Score: 70

Remark: Pitch variation is acceptable.

Observation: John's use of pitch adds some interest to his speech.

Improvement: He could benefit from further practicing pitch variation to emphasize key points.

4. Domain: Fillers

Score: 50

Remark: Frequent use of fillers.

Observation: John frequently uses fillers like 'um' and 'like', which detracts from his speech.

Improvement: He should practice pausing instead of using fillers.

5. Domain: Grammar

Score: 80

Remark: Generally good grammar.

Observation: John's grammar is mostly correct, which supports clear communication.

Improvement: He should focus on mastering more advanced grammatical structures.

6. Domain: Speech Structure

Score: 65

Remark: Structure needs improvement.

Observation: John's speech structure is sometimes unclear, making it hard to follow.

Improvement: He should work on creating outlines for his speeches.

7. Domain: Accent

Score: 75

Remark: Accent is understandable.

Observation: John's accent is clear enough for comprehension.

Improvement: He could practice articulation exercises to enhance clarity.

8. Domain: Neck & Eye Movements

Score: 55

Remark: Limited use of movements.

Observation: John's nonverbal communication is minimal, which may reduce engagement.

Improvement: Incorporating more gestures and eye contact can enhance his delivery.

9. Domain: Hand Movements

Score: 50

Remark: Minimal hand gestures.

Observation: John rarely uses hand movements, making his speech less dynamic.

Improvement: Practicing gesturing naturally while speaking could improve engagement.

10. Domain: Body Movement/Posture

Score: 65

Remark: Posture is acceptable.

Observation: John maintains a generally good posture while speaking.

Improvement: He should work on being more animated to convey enthusiasm.

11. Domain: Confidence

Score: 40

Remark: Lacks confidence during speech.

Observation: John appears nervous, which affects his delivery.

Improvement: He should practice speaking in front of a mirror or in small groups to build confidence.

Conclusion

John has several strengths, especially in language proficiency and grammar. However, he should focus on reducing fillers, improving speech structure, and building confidence to enhance his overall speaking skills.
